

Proposed control measures to consider in an outbreak setting:

- Policies
  - Stay home when sick policy/sick leave compensation: to ensure workers report illness and stay home when ill
  - Do not gather socially
  - Work virtually where possible
  - Work in isolation where possible
  - Cohorting of work schedule: extend or otherwise change duration or overlap of shifts onsite (e.g. from 7d to 14d)
  - Cohorting of accommodation: e.g. COVID and non-COVID accommodation, keep work cohorts together
  - Other
  
- Infrastructure
  - Ensure >2m distance
  - Adequate physical barriers
  - Setup handwashing/hand sanitisation stations
  - Minimise opportunity for crowding and gathering in worksite, lodging, community
  - Increase staggering in workplace, lodging and recreational areas
  - Adequate ventilation: <https://ncceh.ca/content/blog/role-ventilation-influencing-covid-19-transmission-risk>
  - Enhanced cleaning
  - Close/limit common areas (e.g. gyms, cafeteria, mtg rooms)
  - Other
  
- Use of PPE and other personal behaviours
  - Ensure access to and use of: masks, +/- shields, goggles
  - Ensure/encourage: regular handwashing, cough/sneeze into elbow, physical distancing, avoidance of crowding
  - Other
