

# Pfizer Pediatric COVID-19 Vaccine Transportation Decision Guide

BC Centre for Disease Control  
Provincial Health Services Authority

## IMPORTANT

- DO NOT RE-FREEZE thawed vaccine.
- Store thawed vaccine at 2°C to 8°C for a maximum of 70 days. The 70 day limit includes time spent in transport.
- Administer thawed vaccine within 70 days. Discard vaccine not administered within this time limit.
- Use the [mRNA Transportation Tracking Tool](#) to track the transportation of mRNA vaccines.
