Subject: BC Centre for Disease Control: account confirmation

Sent: Thu 25/07/2013 2:05 PM

Hi epid coop,

A new account has been requested at 'BC Centre for Disease Control' using your email address.

To confirm your new account, please go to this web address:

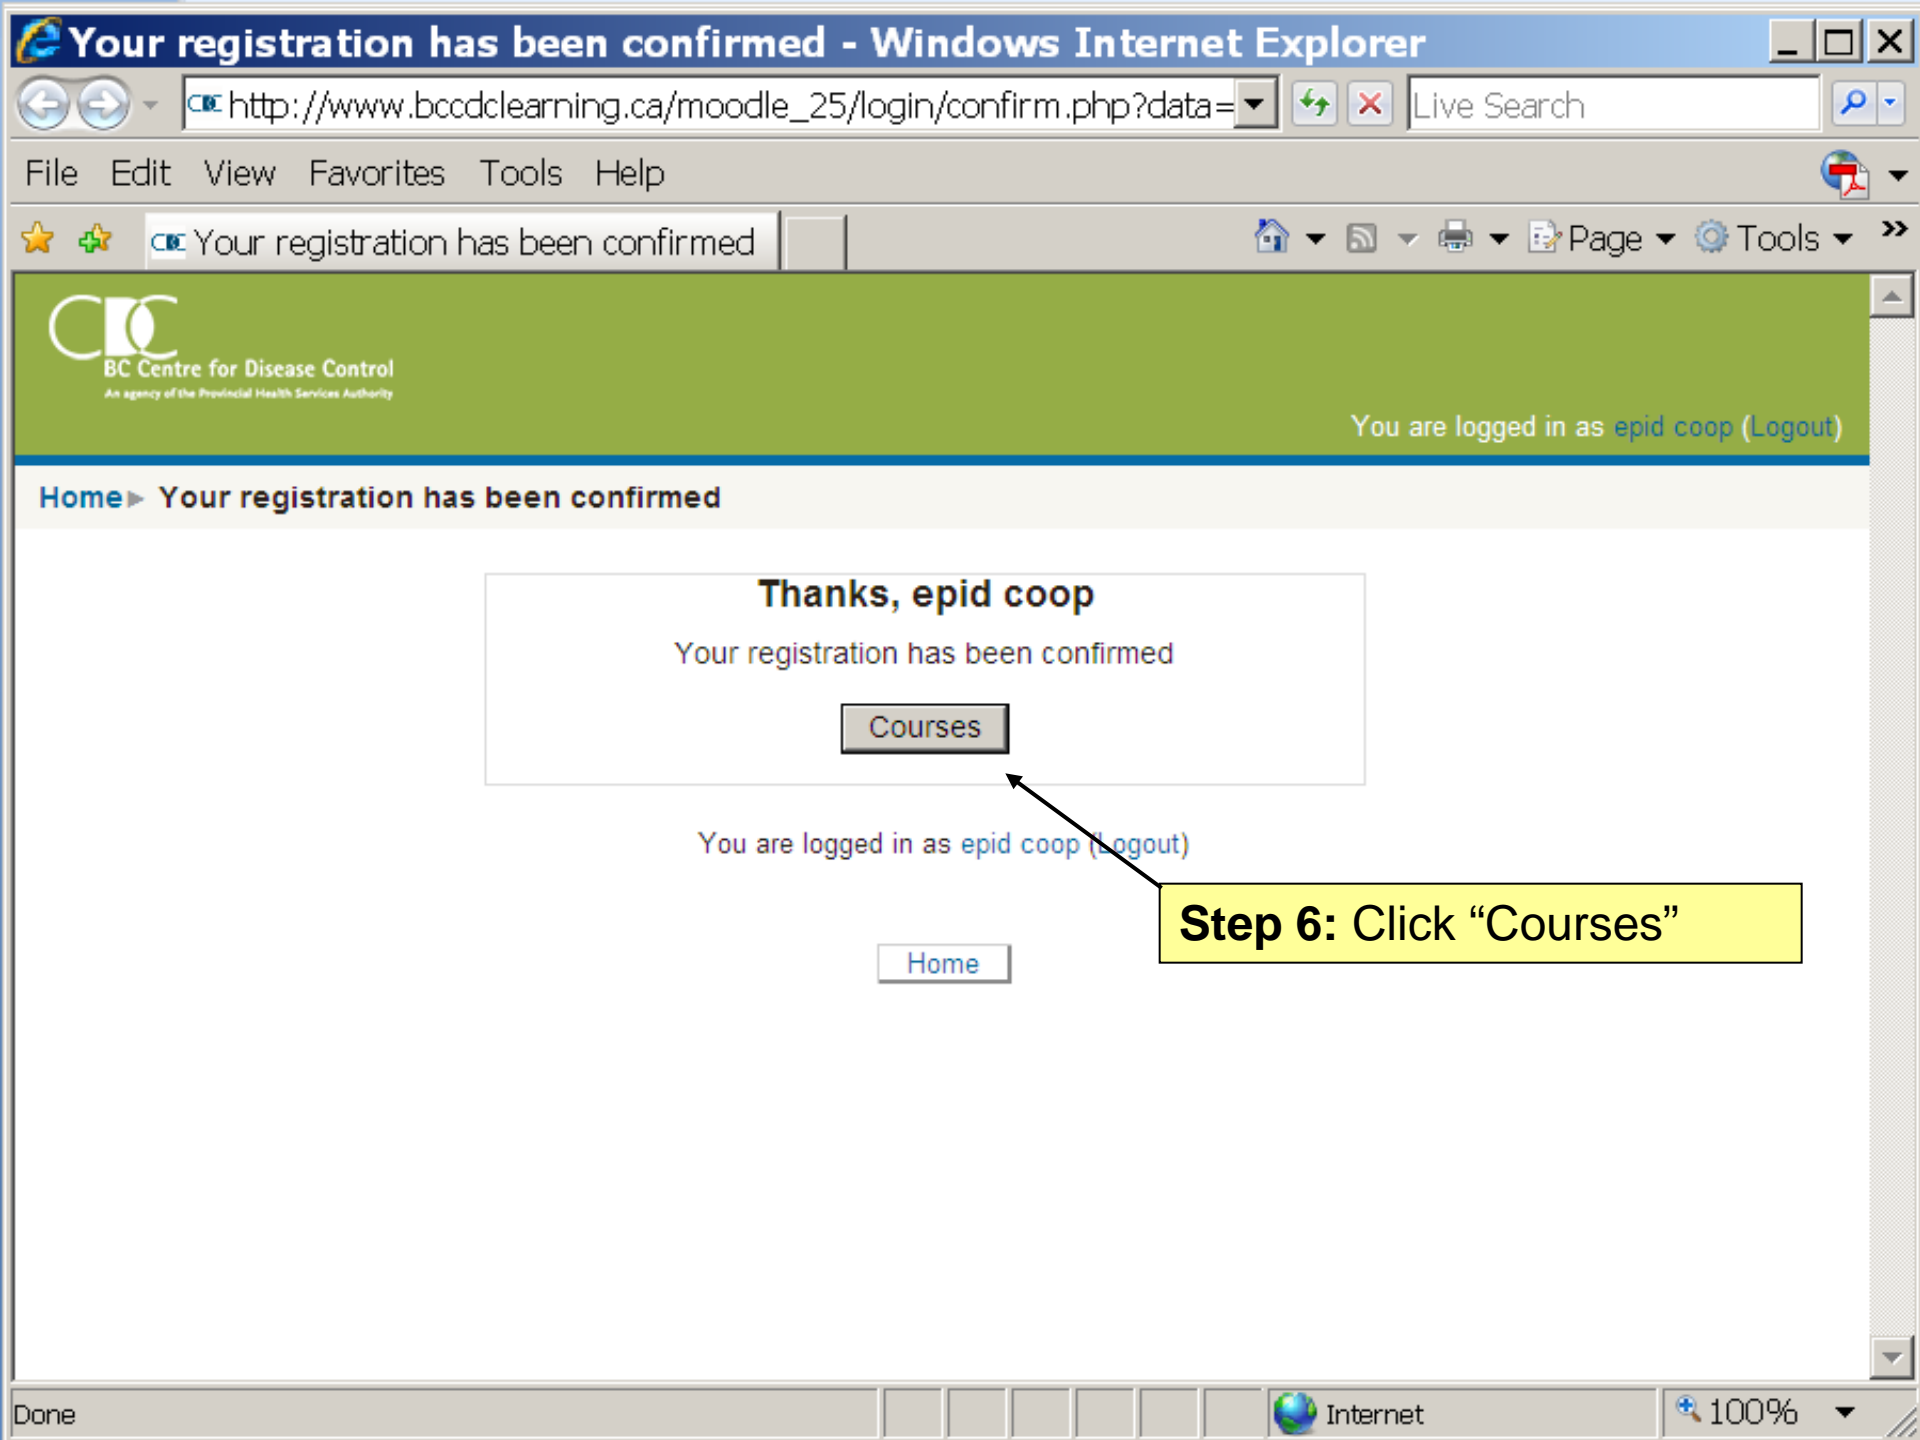

http://www.bccdclearing.ca/moodle_25/login/confirm.php?data=iaHJIBiXfRnVxWB/epid

In most mail programs, this should appear as a blue link which you can just click on. If that doesn't work, then cut and paste the address into the address line at the top of your web browser window.

If you need help, please contact the site administrator,

Admin User
andrewsmit@vancouverconsulting.ca

Step 5: Find the email sent from "Admin User". Then click on the link to activate the account.

Welcome to the TB Essentials Course

Welcome to the BC Centre for Disease Control TB Essentials online course. There has been a steady overall decline in rates of TB disease in Canada, yet TB remains a significant public health concern especially in some populations and geographical areas in BC.

This goal of this course is to prepare nurses to provide TB services in BC. Content is informed by College of Registered Nurses of BC **Professional Standards (client focused care)** and **Practice Standards (consent, confidentiality)**.

This self paced course consists of five chapters that take an hour each to complete. Each module includes written content, video and a chance to test your knowledge through quizzes. You must complete each module in each module before you can move onto the next chapter. Once all modules are done, you will receive a certificate of completion.

If you are new to this online format, please take a moment to familiarize yourself with the layout of the course. Click on the icons below for information about navigating the course.
