

A Framework for Healthy Built Environment

A Framework for Healthy Built Environment

		SOCIAL WELL-BEING	ECONOMIC CO-BENEFITS	SMALL & MEDIUM SIZED COMMUNITIES
Neighbourhood Design		1. Create complete neighbourhoods through mixed land use	2. Build compact neighbourhoods through efficient planning	3. Enhance connectivity with efficient and safe networks
		4. Prioritize new developments within or beside existing communities		
Transportation Networks		1. Use street designs which prioritize active transportation	2. Make active transportation networks safe and accessible for all ages and abilities	3. Design connected routes for active transportation and support multiple modalities
		4. Consider the aesthetics of road, rail and waterway networks		
Natural Environments		1. Preserve and connect environmentally sensitive areas	2. Maximize opportunities for everyone to access natural environments	3. Reduce urban air pollution by expanding natural elements across the landscape
		4. Mitigate urban heat islands by expanding natural elements across the landscape		
Food Systems		1. Increase equitable access to and affordability of healthy food options	2. Protect agricultural land and increase the capacity of local food systems	3. Support community-based food programs
Housing		1. Prioritize affordable housing options through diverse housing forms and tenure types	2. Ensure adequate housing quality for everyone	3. Provide specialized housing options to support the needs of marginalized populations
		4. Site and zone housing developments to minimize exposure to environmental hazards
