ISONIAZID

Isoniazid is an antibiotic used to prevent or treat tuberculosis (TB).

When should I take this?
- Take on an empty stomach 1 hour before or 2 hours after food.
- Take this medicine at the same time every day. This will help you remember to take the medicine.

How should I take this?
- It is very important that you take Isoniazid regularly.
- Take as directed by your doctor.

What should I do if I miss a dose?
- If you miss a dose, take that dose as soon as you remember. But if it is almost time for the next day’s dose, skip the missed dose.
- Do not take a double dose.

Is there anything I should avoid when taking this?
- Alcohol
- Aluminum or magnesium containing antacids. Space at least 1 hour after taking isoniazid.

Tell your doctor, nurse and pharmacist if you are taking any other medicines, including any over-the-counter (non-prescription) products.

What are some possible side effects?
- Tell your doctor if you experience burning, tingling, or numbness in your hands or feet.
ISONIAZID (cont’d)

Caution: Call your doctor or nurse immediately if you experience the following symptoms:
- unusual tiredness or weakness
- fever
- loss of appetite
- nausea (urge to vomit)
- stomach upset or diarrhea
- dark urine
- yellowing of skin or eyes
- rash

Tell your doctor if you experience any unusual symptoms not mentioned on this information sheet.

What else do I need to know about taking isoniazid?
- Tell your doctor if you have any liver disease.
- It is important that you go for all lab tests ordered by your doctor and attend all of your appointments with your doctor or nurse.
- Tell your doctor or nurse if you are pregnant, plan to become pregnant, or if you wish to breastfeed your baby.

Where should I store this medication?
- Keep away from the reach of children.
- Protect from light.
- Tablet or liquid preparations: Store at room temperature in a cool, dry place.

Where do I call if I have any other questions?
