ATTN: Medical Health Officers and Branch Offices
Public Health Nursing Administrators and Assistant Administrators
Holders of Communicable Disease Control Manuals

Re: Revisions to Communicable Disease Control Manual:
Chapter 2 – Immunization Program, Section VII – Biological Products

Please note the following:

Pages 30c & 30d, Influenza A (H1N1) 2009 Pandemic Monovalent Vaccine
(Without Adjuvant) & pH1N1 Influenza Vaccine (Unadjuvanted) Clinical
Formulation:
- Replaced the indication of “Individuals ≥ 3 years of age who request
  unadjuvanted vaccine” with the previous “Healthy individuals 10 to 64 years of
  age.”
- Added “By parental request only for children 3 – 9 years of age.”
- Added a footnote that the recommended product for children 3 – 9 years of
  age is the adjuvanted H1N1 vaccine.
- Added a footnote regarding the need to reserve supplies of these products to
  meet the pregnancy indication needs in each health authority until the
  2010-11 influenza vaccine is available.

Please remove and destroy the following pages from the Communicable
Disease Control Manual, Chapter 2 – Immunization Program: Section VII –
Biological Products

Pages 30c & 30d Dated November 20, 2009

Administrative Circular 2009:27
Please insert the following pages in the Communicable Disease Control Manual, Chapter 2 – Immunization Program: Section VII – Biological Products

Pages 30c & 30d Dated November 27, 2009
