

# Canadian *Salmonella* Enteritidis (SE) Control Symposium

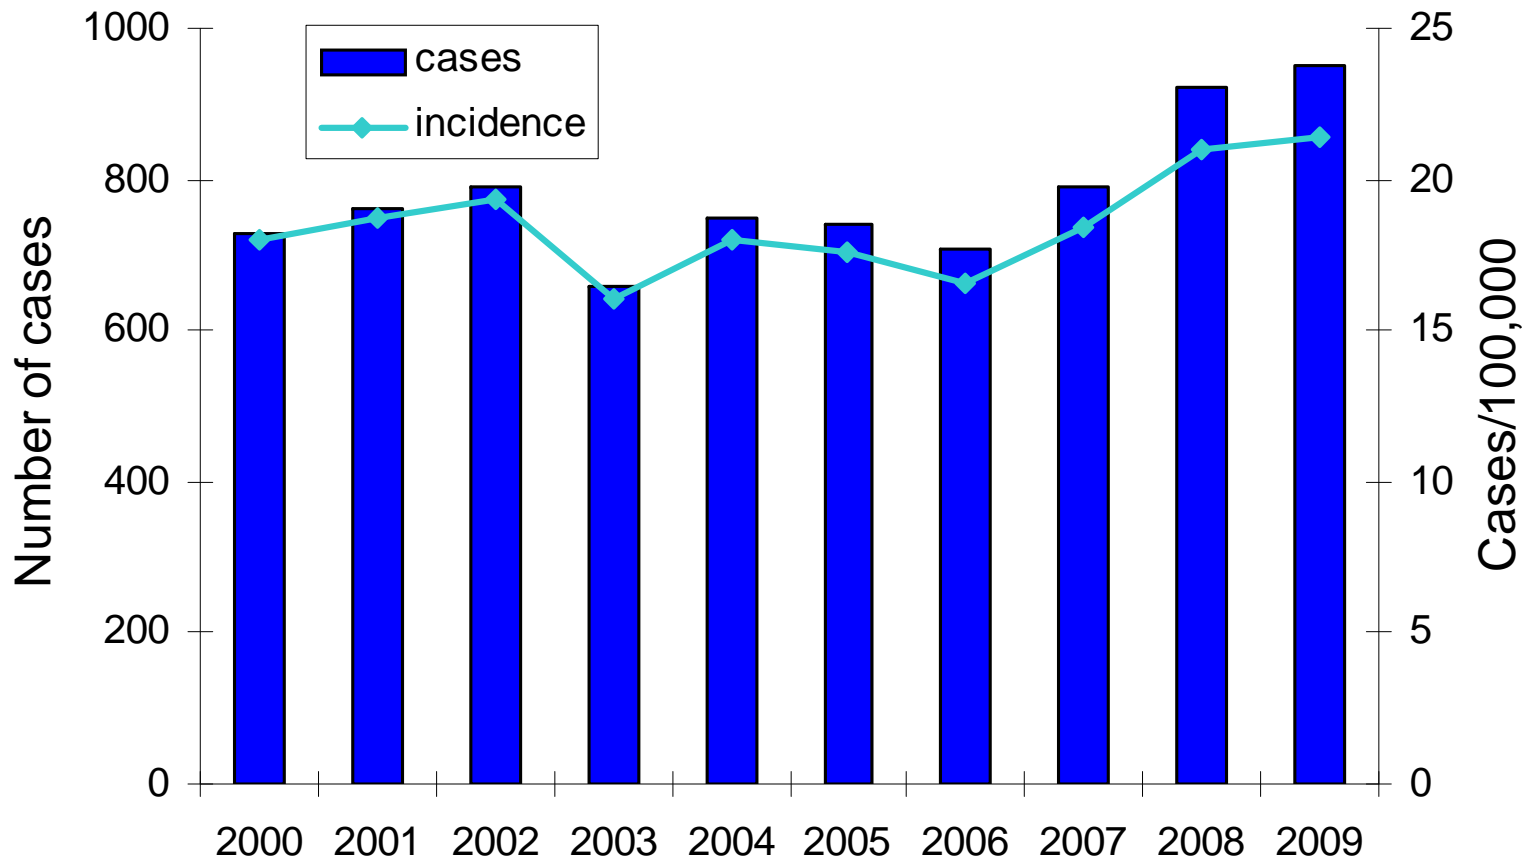

Robert Brunham  
Provincial Executive Officer  
BC Centre for Disease Control  
*December 1 2010*

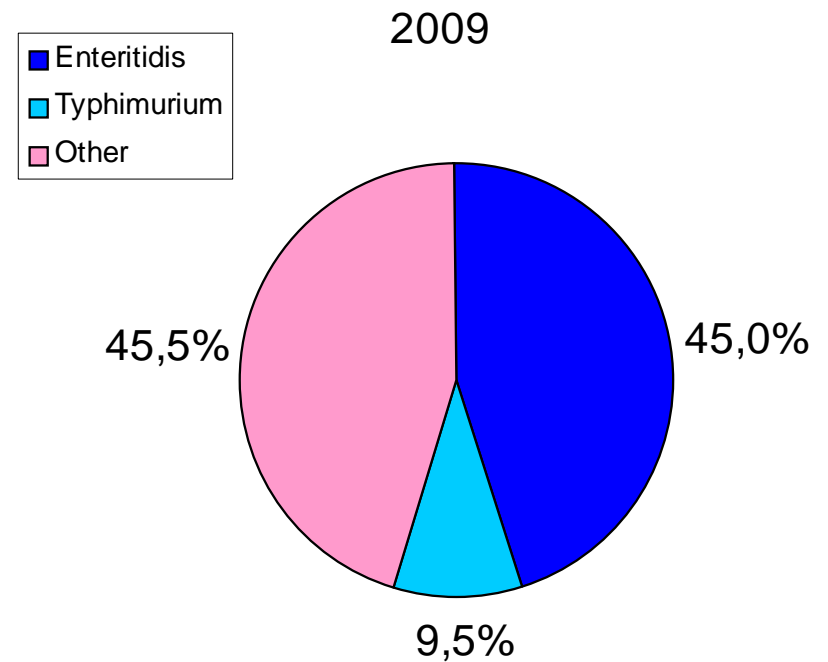

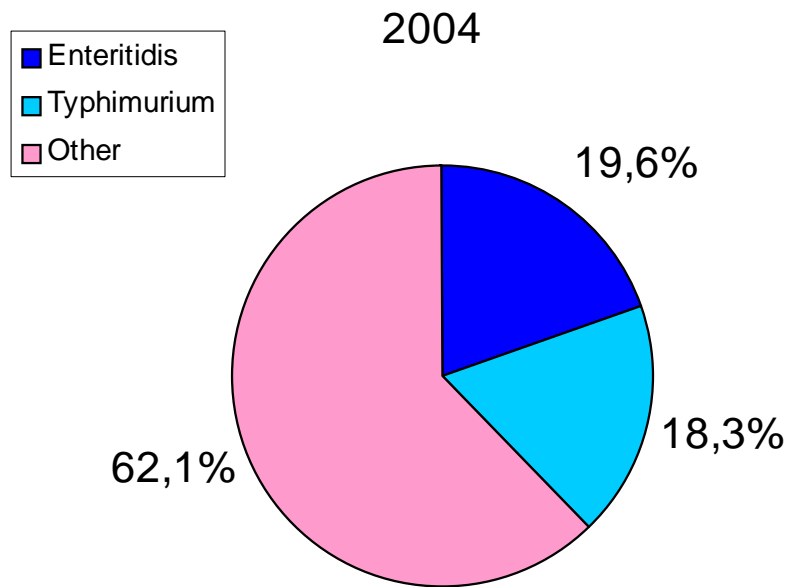

# Number of reported cases of enteric diseases, BC, 2009

# Number of cases and incidence of salmonellosis, BC, 2000-2009

# Proportion of *Salmonella* serotypes, 2004 and 2009, BC

# Burden of SE in BC

- 1170 cases of SE infection reported in 2007-2009
- Only cases who see physician and get stool tested are reported (approx. 1/25 cases of *Salmonella*)
- Equivalent to nearly 30,000 actual cases of SE in the community in 2007-2009

# Symposium objectives

- To allow stakeholders from government, industry, and academia who are involved in the surveillance, control and research of SE to share information
- To enhance our understanding of current
  - Epidemiology of SE in Canada
  - Effective prevention and control strategies
  - Research initiatives and findings
  - Policy and regulatory issues
