

# Influenza Disease & Immunization Courses for Health Professionals

These online courses are a project of the BC Immunization Committee (BCIC)  
Professional Education Working Group (PEWG).

## Courses:

- **Influenza Immunization Competency course:  
Foundations of Influenza Disease & Vaccines**

*For those new to influenza immunizations as well as those who want in-depth information on the disease and/or vaccines. This course is a comprehensive competency course, based on the Immunization Competencies for BC Health Professionals, for new immunizers who will be providing influenza vaccines only.*

*Anticipated Length: 3.5 hrs*

- **Seasonal Influenza Update – 2023/24**

*For those who have taken the Foundations course and/or experienced clinicians wanting an update for the current influenza season.*

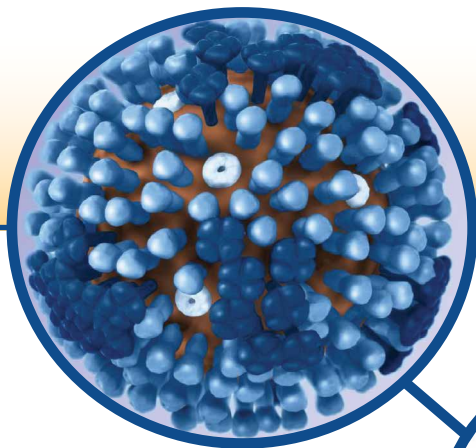

*Anticipated Length: 45 min*

## Who can participate?

BC health care professionals and interested students.

## Proof of Completion?

LearningHub will provide a certificate for each course once you have successfully completed each final exam.
