Re: Update to Communicable Disease Control Manual, Chapter 2: Immunization, Part 4 - Biological Products & Part 5 - Adverse Events Following Immunization

Part 4 - Biological Products

COVID-19 Vaccines

COVID-19 mRNA Vaccine BNT162b2 (Pfizer)

Precautions:

The recommendation to defer the second dose of mRNA COVID-19 vaccine for those who experience myocarditis or pericarditis following the first dose has been updated to clarify this event as 'physician-diagnosed' myocarditis or pericarditis. Further guidance has also been added to indicate that deferral is not required for those with a prior history of myocarditis or pericarditis that is unrelated to COVID-19 mRNA vaccines.
