Public Health Nursing Administrators and Assistant Administrators

Holders of Communicable Disease Control Manuals

Re: Revised Guidelines for the Control of Hepatitis A

Please note the following revisions to the Hepatitis A Control Guidelines:

- Page 3: A definition of a hepatitis A outbreak is provided.
- Page 7:
 - Deletion of recommendation that persons who have received 1 dose of hepatitis A vaccine at least 1 month prior to exposure do not need hepatitis A vaccine or IG. History of receipt of even one dose of hepatitis A vaccine at any time prior to the exposure eliminates the need for vaccine or IG post-exposure.
 - Only one dose of Hepatitis A vaccine is to be provided postexposure

Please remove and destroy from the Communicable Disease Control Manual:

Hepatitis A Control Pages 1 to 10

Dated January 2003

Insert the following pages in the Communicable Disease Control Manual:

Hepatitis A Control Pages 1 to 10

Dated April 2003

The revised Hepatitis A Control Guidelines are posted on the BCCDC website at: www.bccdc.org

If you have any questions or concerns, please contact Karen Pielak, Nurse Epidemiologist, Epidemiology Services, BCCDC at telephone (604) 660-6061, fax (604) 660-0197 or e-mail karen.pielak@bccdc.ca

Sincerely,

David Patrick
