

## **Early measles vaccine recommendations for areas in BC**

### **Early doses are recommended for individuals living in the following areas in BC:**

- First dose for individuals 6-11 months of age (inclusive):
  - [Northeast \(NE\) Health Service Delivery Area](#)
  - Prince George
- Second dose for individuals under 4 years of age – Northern Health Authority

### **Early doses are recommended for individuals traveling to the following areas in BC:**

- First dose for individuals 6-11 months of age (inclusive) – [Northeast \(NE\) Health Service Delivery Area](#)
- Second dose for individuals under 4 years of age – [Northeast \(NE\) Health Service Delivery Area](#)

MHOs may provide other recommendations regarding early doses for travelers. For areas not represented above, health professionals should contact the [regional health authority](#) public health unit and/or CD unit for the area in which the individual resides.

For dosing and schedule recommendations, refer to the BC Immunization Manual, [Part 4: Biological Products](#).
