

Canadian Sentinel Practitioner Surveillance Network (SPSN) COVID-19 Vaccine Effectiveness (VE) Estimates

SPSN VE estimates against COVID-19, 2023-24 to 2025-26 seasons

Since the 2023-24 respiratory season, the Canadian SPSN has assessed COVID-19 vaccine effectiveness (VE). To facilitate cross-season comparisons, VE is displayed by season in the figure above. End-of-season estimates are shown where available; otherwise, mid-season estimates are displayed.
